

Abdelrahman Mahmoud Hassan

Penetration Tester

abdelrahman.mahmoud0470@gmail.com | +201026411847 | Cairo, Egypt

[LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Summary

Aspiring Penetration Tester with foundational knowledge in Cybersecurity, Web Application Security, Networking (CCNA fundamentals), and Linux systems. Experienced in practical labs through PortSwigger Web Security Academy, with hands-on exposure to vulnerabilities such as SQL Injection, Cross-Site Scripting (XSS), and Insecure Direct Object References (IDOR). Familiar with security assessment tools including Burp Suite and Nmap, and continuously developing skills in ethical hacking and offensive security techniques.

Education

El Shrouk Academy

2023 – 2027

Expected graduation in 2027

Cairo, Egypt

Skills

Technical Skills

- Cybersecurity Fundamentals
- Web Application Security (SQL Injection, XSS, CSRF, SSRF, IDOR, Clickjacking)
- Information Gathering & Reconnaissance
- CTF & Hands-on Security Labs (PortSwigger, HackTheBox)
- MySQL Database Basics

Networking & Operating Systems

- Linux Administration (Commands, File Systems, Users & Permissions)
- Bash Scripting Basics
- TCP/IP & Networking Fundamentals
- Network Protocols (HTTP/HTTPS, DNS, DHCP)
- Linux Command Line & System Navigation

Security Tools

- Burp Suite (Proxy, Repeater, Intruder)
- Nmap & Masscan (Network Scanning & Enumeration)
- sqlmap (Automated SQL Injection Testing)
- Wireshark & TCPDump (Traffic Analysis & Packet Inspection)

Courses

Cybersecurity Bootcamp

2025

NTI

- Learned Cybersecurity, Linux, and Networking fundamentals.
- Practiced penetration testing and web security testing.
- Gained hands-on experience with security tools and labs.

Fundamentals of Penetration Testing

2025

- Learned Cybersecurity, Linux, Networking, and Information Gathering fundamentals.
- Hands-on experience with penetration testing tools and web application security testing.
- Practical knowledge of vulnerability assessment, enumeration, exploitation, and security analysis techniques.
